

Management Services

Transwestern's Management Services specialists are the best talent in the business who raise the bar on what it means to provide a higher level of service. No matter the scope or scale, our approach to adding quantifiable value to commercial properties and their operations will always be people-driven and client-focused. The way we see it, better is bigger.

BETTER APPROACH

Our trained professionals take an ownership mentality with each of our clients' assets, acting as the CEO of the project and going above and beyond to deliver The Transwestern Experience. Being committed to long-term relationships, we provide considered attention to detail to create a unique and cohesive experience while bringing long-term, strategic thinking to each property.

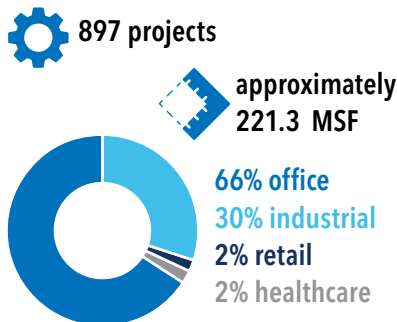

BETTER SCOPE

Credentialed property and facilities managers are at the helm of each assignment we undertake. Our professionals advise owners and continually hone skills in operations strategies, industry-leading tenant relations programs, strategic planning, budgeting, due diligence, capital improvements, building enhancement programs and accurate financial reporting.

BETTER VALUE CREATION

We enhance property values for all types of ownership, including institutional investors and corporate users. In addition to ENERGY STAR® and the U.S. Green Building Council's LEED® rating system, our management services professionals work in tandem with Transwestern's Sustainability Services experts to measure and optimize building performance to positively impact asset bottom lines.
